Programming Paradigms

Lecture 14

Final Exam Organization

Step 1: Before 8.30am please enter on the teams : Programming Paradigms- Master Software Engineering

Step2: Please connect to the meeting on the channel Exam

Step3: In the meeting from Step 2 you will get a link to a Google Form where you have to introduce the links for your camera and for your screen from obs.ninja

Step4:

After you complete the Step3, you will get a link to a Google Form that contains the Exam Subjects. You have to solve each subject on a different paper. After then you have to put your identity card on each paper and photocopy them. There will be 3 subjects therefore you will have 3 papers. Those 3 phocopies must be submitted in time (the time period is specified in the form) through that Google form.

Step 5: There will be 5min break.

Step 6: We use the Teams and obs.ninja to evaluate online your exam. The grade will be written in AcademicInfo.
